

## Pneumatic Coil Spring Compressor 1600kg

A truly UNIVERSAL pneumatically operated coil spring compressor, for McPherson Strut type suspension systems.

### Additional Information

- Suitable for spring sizes 80mm < 310mm maximum. Compression force of 1600Kg, provides sufficient power to cover ALL known standard production models (Car/ Van)
- Fitted safety cage with safety valve – restricts use when in open position
- Suitable for both left and right hand wound springs and for ALL types of springs inc. Tapered, Banana and LH wound springs
- Floor mounted Macpherson Strut and coil over spring compressor Can be used on ALL types of strut assemblies WITHOUT the need for costly accessories: - Mercedes type coil over dampers (C class, E class, VW Toureg etc), - High compression springs (as found on Toyota, Honda) - LH wound springs (as found on Nissan Qashqai) plus Aftermarket Suspension modifications - due to extra - long stroke of 440mm
- Adjustable spring clamps can be used directly on the spring or on top and bottom mounts ( triple spring clamp mechanisms are fitted for added safety). Ease of service by the owner - no need for costly site visits by service engineers. Extensive spare parts service available
- Machine specifications: Height 1340mm | Width 500mm | Weight 65Kg. • Requires a filtered air supply between 6 and 10bar (90 - 150psi)
