

Oil Filter Wrench 73 - 105mm

Oil filter wrench with 180° swivel handle, designed for accessing awkward areas, with adjustable ratchet action that fits filters between 73 - 105mm diameter. The metal strap has a soft inner band to provide a strong, non-marking grip and the rubber coated handle has ergonomic finger knurls for comfort. An all-in-one, cost-effective solution for removing hard to access standard oil filters.

Additional Information

- Adjustment range: 73 - 105mm.
- Soft grip inner band to avoid damage.
- Ergonomic comfort grip handle.
- 180° swivel handle ideal for restricted access.
- Durable, steel construction with a polished chrome finish.
