

Valve Grinders 2pc

A pair of valve lappers with four different size suction cups for grinding and lapping valves. Rubber end cups shaped to stick to the valve for accurate manual lapping of the valve head. Good quality lapping sticks with shaped wooden handles in two lengths (210mm and 230mm) designed for faster and more comfortable grinding.

Additional Information

- Pair of valve grinders designed for manual engine valve lapping.
- Four cup diameters: 16, 20, 29, 35mm fit a wide range of engine heads.
- Shaped wooden handles for comfort and ease of use. Stick lengths: 210, 230mm.
- Rubber end cups sized to stick to valves for accurate grinding.
- Ideal for use with grinding paste, Part No. 2561. Set of grinders & paste also available, please see Laser Part No. 6229.
