

Impact Star Socket Set 3/8"D, 1/2"D 17pc

A comprehensive 17 piece set of star* drive bits in a good range of sizes between E5 and E24 covering most star* fixings encountered in the workshop. Quality bits forged from chrome vanadium for durability with a black phosphate finish for improved corrosion protection. Large, high contrast size markings on each socket for quick identification. Designed for use with impact tools for safe and fast adjustment of star* fixings.
