

Tractor/Garage Funnel

Heavy duty tractor funnel for the garage and agricultural workshop. The wide rectangular shape 10" x 7" (255 x 165mm) fits standard oil containers, making it a quick, easy job to top-up larger tanks. Manufactured from high density polyethylene that is ribbed for strength and resistant to oil and fuel. The tapered spout is designed to fit standard fuel tank openings, for a spill-free, fast fill and there is a mesh filter to prevent debris entering. A versatile funnel ideal for a wide range of automotive and agricultural maintenance jobs.
