

Brake Caliper Socket 3/8"D 8mm

An 11 point socket specifically for use on brake calipers. This adaptor is fitted on all new Knorr-Bremse calipers as an OEM part of the caliper and is also supplied as part of the OEM service kit, along with the dust cover which fits over the caliper adjuster. It is designed to shear or break-away when used, hence the desire for a socket which covers the same application.

Additional Information

- Applications: Knorr-Bremse calipers type: SB, SK and SN. Typically found on BOVA, DAF, Foden, MAN, Mercedes-Benz and Scania. Also on BPW and SAF trailers.
- 11 point profile.
- Size: 3/8"D x 8mm x 26mm long.
- Manufactured from Chrome Vanadium with black phosphate finish.
