

Vacuum Brake Bleeder Kit

A lightweight, easy to carry pneumatic brake bleeder with automatic cut off.

Additional Information

- Air operated (pneumatic - non spark) 2 litre capacity.
- By using vacuum via the bleed nipples there is no requirement for expensive multiple pressure caps. The manual trigger has a locking mechanism to allow hands free use.
- Automatic cut off.
- Working pressure: 40 - 170psi (2.8 - 12 bar).
- Includes automatic (hands free) reservoir top up bottle. 1m silicon hose with universal rubber adaptor.
