

Ratchet Action Pipe Cutter 3 - 13mm

Mini pipe cutter with aluminium bodied ratchet action handle. The handle provides a smooth, positive ratchet action for quicker, easier cutting even in confined spaces. Ideal for automotive brake and fuel lines as well as pipes between 3mm and 13mm. The pipe cutter is easily attached to the handle and can also be used without if space is very restricted. A lightweight, robust tool that gives clean cuts in a range of materials including copper and cupronickel.

Additional Information

- Mini cutter & ratchet cutter in one tool. For pipe diameters: 3 - 13mm (1/8" to 1/2").
- Ideal for brake pipe maintenance. Also cuts copper, brass, aluminium and plastic tube.
- Ratchet action handle & hardened steel blade for fast clean cuts.
- Mini tube cutter can be used without the handle for pipe cutting in confined areas.
- Tool length: 170mm (with handle), 40mm (without handle).
