

Drive Belt Tensioner Gauge

Belt tensioner gauge for use with final drive belts used on motorcycles.

Additional Information

- Applications: belt driven motorcycles including Triumph Thunderbird, Harley Davidson, Yamaha.
- Scaled from 1" to 3.5".
- Correctly tensioned and aligned belts prevent premature wear on the whole of the drive train.
- When using on Triumph Thunderbird, consider use of Laser Part No. 6955 for initial wheel alignment.
- Use in accordance with vehicle manufacturer's instructions and recommendations.
