

Crows Foot Adaptor 1/2"D

Crows Foot Adaptor 1/2"D (M/F) designed to enable a standard torque wrench to be used with Laser 1/2"D Flexible Crows Foot Wrenches (Laser Part No. 7164). When using with a torque wrench in line an allowance for the increased length must be made to the wrench setting.

Additional Information

- Designed to allow flexible crows foot wrenches to be used in line with any standard torque wrench or ratchet.
- Ideal for torquing exhaust gas sensors and general engine sensors such as Lambda, EGT, Coolant Temperature, Knock Sensors etc.
- Turns standard 1/2"D torque wrenches into spanner type torque wrenches.
- Not for use with air tools.
- EU Registered Design. Made in Sheffield.
