

Locking Tag Station Kit

Locking tag station kit supplied with lockout tags and hybrid/EV warning signs. The kit allows the logical management of safety tags to enforce safe removal and return of assigned tags. Ideal for any large bodyshop or workshop with multiple trained technicians working on multiple repair jobs on Hybrid/EV vehicles.

Additional Information

- Wall mounted lockout tag station, designed for the storage of up to 100 lockout/warning tags, providing easy access when required. The pocket style storage helps in identifying the number of tags in use as well as ensuring the user can see when more tags may be required. Size: 350 x 400 x 30mm.
- Two packs of 10 lockout tags, providing safety warning with self-adhesive overlay on back of tag, allowing for authorised employee name to be written. Size: 146 x 75 x 0.5mm.
- Two packs of 10 Hybrid/EV warning signs (for hanging on internal rear view mirror or steering wheels), designed to serve as a warning that vehicle is EV or hybrid. Ideal for workshops to hang inside customer cars or car hire companies etc.
- All products contained in this kit are available as individual items - please see Laser Part Nos. 7945 (locking tag station), 7941 (lockout tags, pack 10), 8049 (Hybrid/EV warning signs, pack 10).
