

Extendable Ratchet Handle 1"D

A telescopic 1"D ratchet with lock-out button, allowing for a greater torque to be applied when loosening stubborn or corroded fixings without causing damage to the ratchet mechanism. The handle has 6 fixed positions, extending from 610mm to 1000mm, which are locked into place using a spring-loaded pull-back collar.

Additional Information

- 43 teeth ratchet mechanism.
- Extendable range: 610 – 1000mm.
- Features a ratchet lock button allowing more torque to be applied when being used as a breaker bar. Maximum load capacity: 2,515Nm.
- Manufactured from chrome vanadium with a chrome plated finish & a knurled grip handle.
- A 3/4"D version is also available, please see Part No. 8791.
