

Ratchet Handle 72 Teeth 3/4"D

A 3/4"D ratchet with a reversible 72 teeth mechanism and a safety lock to hold the socket in place, preventing it from detaching from the head and causing damage or injury. Measuring 504mm in length, the slim-line design helps to keep the wrench robust whilst saving weight on a regular 3/4"D ratchet, and it also features a rubberised handle for better grip.

Additional Information

- 72 teeth ratchet mechanism.
- Overall length: 504mm.
- Slim design - lighter than a regular 3/4"D ratchet.
- Manufactured from chrome vanadium with satin finish & soft grip handle.
- Lock-on socket feature, with quick release.
