

Insulated Flexible Inspection Mirror - 240mm Long

A fully insulated inspection mirror, approved for live working up to 1000V AC / 1500V DC, ideal for hybrid and EV servicing and maintenance. Featuring a 50mm diameter lens and 140mm flexible shaft, ideal for the inspection of high voltage cables and connectors in confined areas such as battery packs, controlled and hard to reach under vehicle areas. It's finished in a high visibility orange rubber coating for easier handling.

Additional Information

- Insulated long handled inspection mirror for use near high voltage live circuits, with a rubber moulded casing for easier handling.
- Total length: 240mm; Flexible shaft: 140mm long.
- Mirror: 50mm diameter.
- Manufactured to IEC60900 standards, for safe operator use on live voltages up to 1000V AC / 1500V DC.
- A longer 630mm insulated flexible mirror also available, please see Part No. 8712. NOTE: Do not apply bending pressure within 30mm of the mirror joint.
