

Skipper XS c/w Wall Mounting Clips

The Skipper XS range of products were developed to adapt Skipper's great versatility to indoor environments such as in warehousing, manufacturing and workshops. The unique XS range allows for connection to any indoor surface, from high gloss and glass, to worktops, shelving, door frames and pillars, making anything possible. This kit comprises of a Skipper XS head unit; which features a 9 metres (30ft) of high-specification fabric tape that's made Skipper the market leader in retractable barriers. Its three connector points allow it to interface from various angles with its accessories, each of which can hold the XS unit in place and receive its tape end clip, making the range hugely versatile and adaptable to indoor environments. Together with two wall mounted receiver clips, that act as an end-point for Skipper retractable barriers & can also be used to support the Skipper waste & safety management accessories.
