

Ratchet Handle 120 Teeth 3/4"D - Extra Long Leverage

A 3/4"D ratchet with a reversible 120 teeth mechanism, with the added advantage of including three dual purpose extensions bars that can be assembled together to fit the end of the ratchet creating extra leverage and torque. A high-quality ratchet action, suitable for HGV service workshops, heavy plant machinery or agricultural work, that can be easily stored in a standard roll cabinet or tool box.

Additional Information

- 120 teeth ratchet mechanism with 3° ratcheting arc.
- Length: 510mm.
- Includes 3x dual purpose extensions bars. Lengths: 100, 200 & 400mm.
- Extension bars can be used to extend the length of the ratchet handle to 1050mm.
- Maximum load capacity: 2,034Nm.
