

Oil Drain Storage Station - Magnetic

Designed specifically to provide a clean, tidy and convenient way to store the Laser 7980 funnel kit after use. The Laser 9113 drain station ensures the components of 7980 to drain off any excess oil so it drains in to a suitable 1L oil bottle for periodic safe disposal. The drain station can be attached to a steel tool box using the fitted magnets or it can be attached to non-metallic surfaces using the 3 pre-drilled screw holes.

Additional Information

- For use with Laser oil funnel kit, Part No. 7980.
- The design ensures excess oil from the funnel kit components drains in a controlled manner into an empty plastic oil bottle.
- Use with a standard 1L oil bottle (not supplied).
- Mount vertically on a flat vertical surface using magnets or screw holes provided.
- Manufactured in the UK. UK Registered Design. Also available as a complete set, including the funnel kit, please see Laser Part No. 9120.
