

## Fast Repair Tyre Plug

Possibly the fastest tyre repair device yet! The Laser fast repair plug is designed to screw into the hole in the tyre and then break off flush. Ideal for a temporary repair to get the vehicle moving to the tyre fitting centre.

### Additional Information

- Simple to use, without glue. Just remove the screw or nail from the tyre and screw the Laser fast repair plug in, and snap off the handle on the tyre plug.
- Kit contains: 4x large hard plastic tyre plugs & 1x nail extractor lever.
- Tyre plug size: insertion length = 28mm, thread core diameter = 4mm tapered.
- Lever manufactured from steel with a powder coated finish.
- The tyre plug handles also feature a built-in tread depth gauge.
