

Mechanic Hammer Set 3pc - 50th Anniversary

The three most important hammers required in any tool box. To celebrate our 50th year of trading Laser Tools have introduced a set of the most popular and most used hammers. As with many other 50th year special products the Laser 9279 set comes with a special 50-year limited warranty (see website for details).

Additional Information

- Includes: 3.5oz Cross pein hammer - 330mm long, 24oz ball pein hammer - 385mm long & 3lb club hammer - 260mm long. All with traditional Hickory wood handles & heat-treated carbon steel (45) heads.
- Cross pein hammer - has a chisel-like cross pein side traditionally used for starting the driving of small tacks or nails prior to turning to the larger flat side for final driving in. Also ideal for rust assessment, tapping panels down, removing weld slag & general metalwork.
- Ball pein hammer - the rounded pein face is ideal for the stretching & shrinking of metal as well as rounding off the edges of metal pins & forming solid rivets. Also commonly used to shock the tapered pins of ball joint out of their eyelets.
- Club Hammer - also known as a Lump hammer. Equipped with a relatively short handle, a club hammer is a compact, heavy, hammer used for tasks requiring one-handed striking force with precision, & control. It's commonly used for light demolition, driving masonry nails, & working with chisels on rock or metal. Also useful for setting down of metal faces during welding. Ideal for encouraging stuck hubs, drive flanges & brake drums/discs to separate from their rusted mounts.
- As part of Laser Tools 50th Anniversary, this hammer set is offered with a 50-year limited warranty. For full details, please visit our website. BS approved.
