

Automotive Non-Slip Bit Set 40pc - 50th Anniversary

The Laser 9300 1/2"D Socket Bit set provides 2x bit driver sockets in 1/2"D and 3/8"D, along with 38 interchangeable anti-slip Star*, spline and hex bits. The set is presented in precision-cut EVA foam, featuring a built-in parts tray for screws and fixings. The foam offers easy storage in a standard tool box drawer and easy identification of missing bits, and is sized to fit the Laser Tools anniversary drawers (available separately Laser Part Nos. 9283, 9284 & 9285). The unique grooved machining on the bit profile increases the grip/torque preventing the bit from slipping under heavy application. Launched to celebrate Laser Tools 50th year and covered by the Laser Tools special 50-year limited warranty (see website for details).
