

Magnetic Socket Bit Set 33pc - 50th Anniversary

The Laser 9301 Socket Bit Set brings together three of Laser Tools' best-selling socket bit sets, presented in our anniversary foam tray. Including Star* for TORX* fixings, hex, and spline profiles, the bits are engineered with magnetic centres to ensure a firm hold on fixings when working in confined spaces. The set is supplied in EVA foam for easy storage in a standard toolbox drawer and quick identification of missing bits. Alternatively, it can be paired with our anniversary storage system (available separately: Laser Part Nos. 9283, 9284 & 9285). Launched to celebrate Laser Tools 50th year and covered by the Laser Tools special 50-year limited warranty (see website for details).
