

## Under Bonnet Compact Work Lamp 10W COB Infrared

An under-bonnet bar style COB lamp that features angle adjustable magnets at both ends to allow easy attachment to steel bonnets and vehicle under body. It also includes two hanging hooks for added convenience. The 500mm long lamp has a built-in selectable infrared "wave" sensor function allowing the user to switch the lamp on or off with just a wave.

### Additional Information

- Ideal for hand held or hands-free use, the magnetic ends can be angled to allow the torch to be securely attached to any ferrous surface.
- Dimensions: 40 x 40 x 500mm. Weight: 455g.
- Switch mode: COB on low (500 lumens), COB on high (1000 lumens), off. Also features additional infrared function to turn light on & off with a wave.
- Working time: 2 - 5hrs (approx.) hours. Charging time: 3.5 - 4 hours. Powered by the built in 3.7V 4400mAh Li-ion battery. Rechargeable from USB-C charging cable (included). Overcharge & discharge protected.
- Manufactured from ABS plastic. IP20 & IK07 rated. CE & RoHS compliant.
