

Ball Ended Triple Square Bit Sockets 4pc

A set of 4 long series triple square (XZN Multi point) socket bits manufactured with a ball shaped working end to allow for off line working where access is not easy.

Additional Information

- Applications include: the removal and installation of front wheel bearing bolts, drive shaft bolts, anti-roll bar fixings, intake manifolds, rear axle differentials and other difficult to get to triple square fixings.
- Sizes: M6, M8, M10 & M12 (triple square) x 150mm long. 1/2"D.
- Triple square fixings are used across the Volkswagen Group ranges.
- Equivalent to: OEM T10501 (XZN 10), T40154 (XZN 12) & VAS26013/8 (XZN 8).
- Sockets manufactured from Chrome Vanadium, bits from impact grade S2 steel.
