

Difficult Access Sensor Wrench Set 5pc

First introduced by Laser Tools in 22mm form as the 8100 DPF Fuel Vaporiser Spanner that was designed specifically to work with the Laser 4590 Hand Impact Wrench. The Laser 9230 Difficult Access Sensor Wrench set has been introduced to the Laser range as a result of customer requests for more sizes to work with 4590 for the removal of difficult to reach exhaust sensors.

Additional Information

- Super slim fit for access; 14mm, 17mm, 19mm, 22mm & 24mm across the flats, 6-point crows foot style wrench with 1/2"D.
- Designed for removal of exhaust sensors.
- Can be used with 1/2"D socketry & torque wrench applications. For best results use with Laser 1/2"D hand impact wrench (Part No. 4590).
- Manufactured from abrasion resistant carbon mild steel (AR400), with a chemical black & oiled finish.
- For individual sizes, please see Part Nos. 9188 (14mm), 9189 (17mm), 9190 (19mm), 8100 (22mm) & 9191 (24mm). Made in Sheffield.
