

Adjustable Pulley Puller - Ribbed Belt Pulleys

Designed to enable the removal of auxiliary drive belt pulleys that use ribbed belts. The 9231 has a left and right-hand threaded clamping mechanism that ensures the toothed clamps close equally onto the pulley ensuring the force screw stays centrally mounted on the pulley shaft.

Additional Information

- Applications include: water pump pulley, alternator pulley, air conditioning pulleys & crankshaft pulleys, etc. commonly used across many makes & models.
- Range: 68mm - 125mm diameter pulleys.
- Force screw provided with ball end to prevent gouging.
- Manufactured from heat treated C45 carbon steel (EN8).
- NOTE: Always ensure the force screw & clamping arm are well lubricated with molybdenum disulphide grease before use.
