

Adapter sciagacza wtryskiwaczy — cewka

An injector Extractor adaptor to allow the Bosch solenoid style injectors to be extracted using any 5/8" UNF threaded slide hammer or pneumatic extractor.

Additional Information

- Mounts directly onto the top of the injector, no disassembly of the injector required.
- Simple to assemble. Tighten the clamping force using 3x 3mm grub screws.
- Use with a slide hammer with an 5/8" UNF thread. Please see Laser Part No. 5850 for 2.2kg (5lb) slide hammer or Part No. 4811 for 4.4kg (10lb) slide hammer.
- Can be used with Pneumatic extraction system, see Laser Part Nos. 6264, 6092, 6031 & 8727.
- For difficult access where an angled approach is required, please see additional adaptor Laser Part No. 6123.
